

## Bloodborne Pathogen Refresher Training

This is a new course offered by the Division of Safety to provide annual refresher training for research laboratory personnel who may be potentially exposed to bloodborne pathogens in their work in the research laboratory and have previously attended the "Working Safely with HIV and other Bloodborne Pathogens" Course. This course will provide researchers with the latest information on bloodborne pathogen risks in the research laboratory as well as provide information for means on protection from potential occupational exposures.

**Prerequisite:** Attendance at the "Working Safely with HIV and other Bloodborne Pathogens" Course

**Requirement:** Annual attendance is required for all laboratory research personnel who may be exposed to potential bloodborne pathogens, and who have already attended "Working Safely with HIV and other Bloodborne Pathogens in the Research Laboratory."
