TO LEARN ABOUT SCREENING TESTS, ASK YOUR DOCTOR:

- What’s my chance of dying of the condition if I do or don’t have the screening?
- What are the harms of the test? How often do they occur?
- How likely are false positive or false negative results?
- What are possible harms of the diagnostic tests if I get a positive screening result?
- What’s the chance of finding a disease that wouldn’t have caused a problem?
- How effective are the treatment options?
- Am I healthy enough to take the therapy if you discover a disease?
- What are other ways to decrease my risk of dying of this condition? How effective are they?
