## YOUR HEALTHIEST SELF

## Social Wellness Checklist

Positive social habits can help you build support systems and stay healthier mentally and physically. Here are some tips for connecting with others:

## SHAPE YOUR FAMILY'S HEALTH HABITS

Many things can influence a child, including friends, teachers, and the things they see when they sit in front of the TV or computer. If you're a parent, know that your everyday behavior plays a big part in shaping your child's behavior, too. With your help, kids can learn to develop healthy eating and physical activity habits that last throughout their lives.

## TO HELP KIDS FORM HEALTHY HABITS:

- ☐ **Be a role model.** Eat healthy family meals together. Walk or ride bikes instead of watching TV or surfing the Web.
- ☐ Make healthy choices easy. Put nutritious food where it's easy to see. Keep balls and other sports gear handy.
- ☐ **Focus on fun.** Play in the park, or walk through the zoo or on a nature trail. Cook a healthy meal together.
- □ **Limit screen time.** Don't put a TV in your child's bedroom. Avoid snacks and meals in front of the TV.
- ☐ Check with caregivers or schools. Make sure they offer healthy foods, active playtime, and limited TV or video games.
- □ Change a little at a time. If you drink whole milk, switch to 2% milk for a while, then try even lower fat milks. If you drive everywhere, try walking to a nearby friend's house, then later try walking a little farther.
